Sage Pastel Accounting Xpress

Smart, intuitive accounting
software tailor made for
small businesses.

We know and understand that as a small business owner, you may manage many facets of your business. We can lessen your load when it comes to managing your accounts. Our Xpress software will give you the tools to easily and effectively keep your financials in check leaving you to run and especially grow your business. We want to do more than just balance your books. We want to help your business achieve success.

We've got your back.

We appreciate that when starting out, you may need a little support. We've got real people waiting on the line to help you get up and running. From the day you register your software, we'll be available on the phone and via e-mail for 30 days to help you get started. No cost to you. If you're keen to receive the same expert knowledge and support thereafter, think about signing up for our Business Care Licence subscription. Unlimited telephonic and e-mail support, automatic updates and upgrades, discounted training are just some of the benefits. For international versions, support services are available through your local business partner and the 30 day free trial may not apply. Sage Pastel Business Care Licence for our international customers includes free upgrades only.

Is this the right product for you?

We've developed our software with your specific business environment in mind. We've included only the features you need, without limiting you when your business starts to grow. Our Xpress software comes with a single user and unlimited company licence with the ability to purchase up to 3 additional user licences. You'll be able to securely store 5 years of transactional data while being able to process the current financial year as well as one back. You can create a maximum of 30 cash books and the inclusion of a General Ledger goes without saying.

- Create your company in minutes with our customisable templates
- Easily create, manage and customise invoices, quotes and purchase orders
